Project Pitch and Awards

# What is Code4PA?

Code4PA is a hackathon that encourages learning, collaboration, growth, innovation, and fun among PA's network of technical talent. Through a series of collaborative events, teams will utilize state and local data to generate ideas, designs, prototypes, and/or apps to increase transparency and efficiency for public engagement with the government.

Visit [www.Code4PA.tech](http://www.Code4PA.tech) for more information or to become a mentor, volunteer, or sponsor.
